## Reason For The Small Catch

It took five men, a boy, a gas-boat and a dog to catch and bring home half-a-dozen or so little fish from Pat's lake last Sunday. The party consisted of Harry Gartley, Jack Worden, Louis Olson, M. A. McNurney, and Kenig Johansen, while Charley Moore went along as mascot. It seems that they had just gotten nicely started to fish when somebody saw a wolf. Just about that time by a peculiar coincidence Jack Worden suddenly remembered that the State of California was due in the early evening, so he started leisurely to saunter down to the beach at least HE says he sauntered. A minute or so after his form had disappeared in the woods, two more hungry looking animals appeared at the lake, and the rest of the crowd forgot all about the fishing, and made such good time going through the woods, that Harry Gartley and the worthy postmaster finished the race neck and neck, with the balance bunched and closely contesting for the

honor of being third man down, while the dog was badly distanced. Of course this isn't the story the fisherman tell in public but two of them were overheard comparing notes on what actually happened.

## Santa Ana Getting Ready

As stated in last week's Sentinel the crew for Santa Ana cannery arrived up on the last trip of the Dolphin. Superintendent Harris accompanying the crew north. He has been a local visitor several days this week and reports that the cannery came through the winter in good shape. Some minor changes and improvements will be made this spring before the beginning of packing operations. Owing to the high price of all kinds of fish, a capacity pack will be put up this year.

Capt Torrey has just completed a gill net skiff for Capt. Svendsen.

The State of California brought up more help for the local sawmill, Sunday.

## Return From Trapping Trip

George Smith and Frank L. Coulter returned from their trapping trip on their yawl Restless. Monday afternoon. They report only a very ordinary catch owing to the fact that making the month of April into the closed season for mink and martin practically cuts the trapping season in half and the catch likewise. They say that the snow on the west coast still lies fully 10 feet deep, back a hundred feet from the beach.

## New Express Company

The Wells-Fargo Express company has bought out the Alaska-Pacific Express company, which had been operating in the north for the past decade or so. The new company announce that they will materially reduce the rates on express packages to Alaska, and besides will include marine insurance on all packages shipped. Leo McCormack will represent them here in Wrangell.

## Want Walk To Cemetery

A petition has been put in circulation this week asking that a sidewalk be built out to the cemetery. The plan is for the town and property owners to assist in the work as far as the municipal boundary, and the money for the rest of the work to be raised by popular subscription, entertainments, etc. The first entertainment is set for Saturday, April 22. Particulars later.

## Rioting At Rupert

Police sergent Phillipson, a member of the Northwest Mounted Police, W. A. Casey, a contracting engineer employed by the city of Prince Rupert and one striker were seriously wounded in a battle this morning between 1,200 strikers and almost 1,000 strike breakers, the latter just arrived from Vancouver to continue the work of regrading on the Grand Trunk railroad. A few days ago the hundreds of laborers employed by the railroad company laid down their tools, refusing to work for the amount of pay they were receiving. Accordingly the engineers in charge of the work sent to Vancouver for strike breakers. This morning they arrived on one of the boats from Vancouver and trouble soon started. Armed with revolvers, rifles, rocks and clubs and divers other implements with which to fight, the warring laborers battled in the streets. Of the three seriously injured, one, a striker,

will die, while Engineer Casey is in a precarious state. During the embroglio the police were powerless but the situation is now under control and it is believed the rioting has ended.—Record.

## Preparing For Prospecting

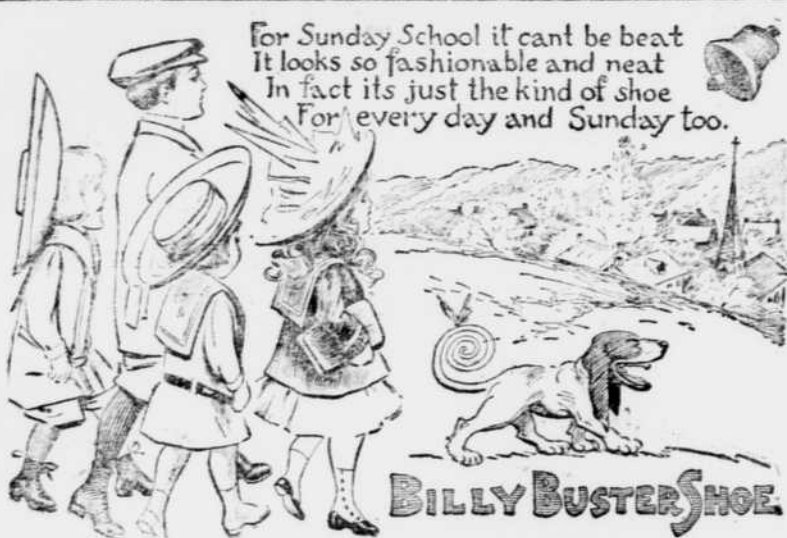

Just as soon as the ice goes out of the river, it is the intention of several local people to go up to the Iskut to try their hands at prospecting. One party, members of whom were up the river last fall, reports to the Sentinel that they are confident they can make a find within thirty, or at most sixty days. Specimens of ore brought out last fall were assayed down on the Sound this winter, and the results were all that could be asked for. Now will come the locating and development work.

There is health in every bottle of Nyal's Hot springs Blood Remedy. Its continued use will make you feel like new. Ask us about it; we guarantee it. Shurick Drug Co.

## Howard Burgert Promoted

Howard Burgert, for the past five years connected with the Pacific Coast Steamship company, in various clerical positions on south-eastern Alaska freight and passenger boats, is now a full fledged purser and was aboard the Ramona in that capacity on the last trip of the steamer. Mr. Bergert will, this summer, assume the responsibilities of purser of the City of Seattle. In Seattle a few days ago the promotion was given him and his fellow officers have been boosting him ever since. Coincident with his leaving the Spirit City on the Ramona it was recalled it was on the Ramona he first entered the employ of the Pacific Coast company. He was a freight clerk under Purser "Dick" Jones at the time of the Cottage City wreck and his coolness at that time has had considerable to do with his present job.

## THE WRANGELL SENTINEL

RICHARD BUSHELL, JR., Editor and Proprietor

Published at Wrangell, Alaska, every Thursday Afternoon

Entered as Second Class Matter, at the Wrangell, Alaska, Postoffice, under Act of Congress of March 3, 1879

\$2.50 per year in advance, otherwise \$3.00 Foreign Countries 50c extra

Juneau is having more trouble on the school teacher line even than did Wrangell, recently. The faculty and pupils of the High School pulled for Candidate Casey who was running for election to the school board. He was defeated, so his opponents got busy and the result was the discharge of the teachers at the High School and the closing of the school for a time.

Governor Clark is at Washington advocating drastic measures to stamp out the sale of liquor to natives in Alaska, and it is feared unless conditions improve in the North, congress will pass a law stopping the retailing of liquor and and legislating the saloons out of business, which would be vigorously opposed by the residents of Alaska. Gov. Clark is seeking a large appropriation for the detection of illegal liquor traffic with

the Indians and seeking to secure a law making those guilty of felony selling liquor to bootleggers.—Dispatch.

The mill made quite a record Friday night with two fire alarms within three hours. Fortunately no damage was done except to several people's feelings.

### Seeking Missing Men

The Sentinel is in receipt of a letter from the acting governor stating that inquiries had been received concerning the following missing men and asking this paper to publish the list in the hope that possibly a clue to their whereabouts or fate would follow:

William Alexander Sutton (or William Alexander), who is supposed to have died in Alaska. Was a veteran of the civil war.

Napoleon W. Powers, native of Marysville, Ohio, came to Alaska in 1894.

Charles Rosenberger, last heard of about six years ago at Eyak or Kayak, Alaska.

Joseph D. Sollek, of Cincinnati, Ohio, supposed to have sailed from Seattle, Wash., to Nome, Alaska, about May 22, 1910. 25 years of age, tall, dark complexion, black, curly hair. Father and mother very anxious.

## If he should come tonight--- THE THIEF

THE thief comes prepared—prepared to take your valuables. Carries the necessary tools. Is expert in their use. One of his tools is the revolver. In plain words, he is prepared to take your life. His deadly intent and expertness make up for his revolver's awkwardness and slowness.

You have neither expertness or deadly intent. You cannot afford to stake everything upon a wrist-straining, trigger-flinching, slow-as-molasses firearm. Settle this matter to-day for the sake

of your family. Get the Savage automatic. The only gun that points straight, shoots true, fires fast, without practice. It is the only gun you can shoot straight anytime you pick it up. Ten shots, one to a trigger pull. Reloads a fresh magazine of ten shots in a flash. Our free book "The Tenderfoot's Turn," by Bat Masterson tells why you point the Savage instinctively true. ## HEALTH Costs Little

It requires but a few minutes each day to fortify the system against such dread diseases as Rheumatism or Bright's Disease.

Impaired action of the kidneys is the forerunner of these two diseases, and if prompt and effective treatment is not begun it often means either of the two.

The time required to take a few doses of

## Aged Native Dies

"Old Charley" one of the best known among the older natives died in his cabin on the alley back of the "Silver Tip" building, Tuesday morning. Death resulted from tuberculosis.

For Sale—Steamers Hope and Antelope either or both cheap for cash. Both boats as is well known in this region are first class tug boats.—Apply to Wm. Lewis.

## May Move Village

It is reported on the best of authority that the natives at Klinquan, which is the extreme southwestern village on Prince of Wales island, will after this summer, abandon their homes and leave the village for a better location. Dissatisfaction over the infrequent call of boats and divers reasons are set out in their excuses for leaving. Owing to the shallow water through which incoming boats must travel in reaching the settlement, frequently the mailboat is hung up on the bars.—Record.

**STORAGE BATTERIES**, guaranteed not to sulphate. Cheaper than dry cells. Come in and see us about 'em. Wrangell Light and Power Company, at Power House.

## Developements Later

F. E. Bronson, who in company with Attorney Gunnison made the trip down to the Sound recently in the interests of the local mill, reports that there is nothing to make public concerning any deal for the sale of the mill property at this time. They went down to consult with monied people who are looking for a sawmill proposition in this region, and a deal is pending. It now develops that an Alaskan millman is also looking toward this property, so that there is likely to be some spirited competition in the sale.

If your teeth are bothering you in any way, call on Dr. Mathis and have him look them over.

There is a report in circulation that a suspicious fire was seen out on the water between town and High Island, Tuesday evening. "Jack" McGeehee went out in his launch and made search supposing that probably it was a burning gas boat, but found no sign of any accident.

Crown and bridge work—everything guaranteed. Dr. Mathis, Dentist.
